DELSEY
PARIS

Edito

"Paris! From its stations to its airports, from its architecture to its residents, the capital is an endless source of inspiration for us. Its elegance is a part of our DNA, just like our total dedication to traveller well-being. From luggage manoeuvrability to ease of travel, from securing personal belongings to ensuring peace of mind, our expertise in high-quality luggage is recognised all over the world. This is proven by our presence in more than 110 countries across five continents.

From the first hardside suitcase to the first rolling suitcase, our French company – with more than 70 years of experience and expertise – continues to devote itself to developing the most cutting-edge innovations. The focus for 2020? Lightweight luggage which is sturdy, practical and secure."

Isabelle Parize,
Executive Chairman of Delsey Paris

DELSEY PARIS' VALUES

"Since 1946, DELSEY PARIS has done its utmost to satisfy travellers all over the world. But beyond the incredible quality of its luggage and its innovations, which have transformed modern travel, DELSEY PARIS prides itself on remaining true to its values, particularly when it comes to the planet. Because without a healthy and sustainable planet, there can be no beautiful landscapes and there can be no traveller well-being! In response to these environmental challenges, the company is taking action and taking responsibility: it is doing everything it can to improve DELSEY PARIS' environmental impact by reducing plastic waste, introducing new recycled materials and improving services to ensure that its luggage lasts longer. DELSEY PARIS has gone further still, committing to education to raise awareness of increasingly "green" (but eternally stylish) travel to ensure its long-term future."

Valérie Chebassier,
Group Marketing & Digital Director

DELSEY PARIS supports travellers, adapting to their movements, their pace and their habits. The French company was founded when the Seynhaeve brothers joined forces with Mr Delahaye, an expert in his field, to specialise in the design and manufacture of high-quality and elegant suitcases. More than 70 years later, DELSEY PARIS continues to offer ingenious luggage with bold designs. The brand's suitcases travel all over the world and are ideally suited to any situation.

DELSEY PARIS is renowned for its innovations. Focused on hyper mobility and environmental challenges, the brand is committed to combining functionality, ingenuity, elegance and awareness, creating products which suit every traveller for a streamlined travel experience. **Just like its luggage, DELSEY PARIS is constantly evolving.** At DELSEY PARIS, we successfully combine essential requirements (innovations, design and sustainability) to create high-quality, hard-wearing luggage.

To demonstrate its commitment to becoming a real agent of change in the world of travel, the brand has created the DELSEY PLANET programme. Over the last five years, it has increased its use of recycled materials and halved its consumption of plastic to reduce its waste-related pollution. Its next challenge? Improving services to extend the life of its products and to encourage their recycling. DELSEY PARIS also wants to support those who work towards "Fair Travel" by advocating greener mobility and supporting travellers as they embark on a truly sustainable journey.

The DELSEY PARIS traveller has always been understated, intelligent, stylish, quick and relaxed. Today, they are also environmentally conscious and truly committed. Because the Earth's beating heart is the rhythm behind this global dance.

INTERVIEW WITH ALBERT ENGLER,

DESIGN AND INNOVATION DIRECTOR DELSEY PARIS

WHAT INSPIRES YOU AND YOUR TEAM?

Paris, the world around us, the people we see in the street, and stations and airports are all an endless source of inspiration. The curves of a vase, a new high-tech object, the nose of a car, the shape of elasticated pleated trousers, and technical and functional pockets on a parka are all potential sources of inspiration which can be adapted in our work.

We're fascinated by fashion and have all been influenced by the sportswear mood that inspired our urban and "bleisure" product ranges.

Beyond purely aesthetic inspiration, we are also inspired by case study scenarios. We think of people who work in La Défense and exercise during their lunch break, for example. What are they wearing? What do they want to transport, protect or hide? How long does their journey last?

WHAT IS YOUR VISION OF LUGGAGE IN 2020?

In 2020, we see luggage continuing on the trajectory which we began in previous seasons: further developing our brand with an increasing focus on aesthetic and functional new products. We don't design items based on short-lived trends because we want to create elegant products which will stand the test of time and which travellers can trust.

Consequently, we've concentrated on an urban adventurer feel and security for frequent fliers and everyday travel.

Our specific focus for 2020 has been to

enhance sustainability with fabrics made from recycled PET in several of our ranges – and there'll be more to come in the future.

WHAT WERE THE REQUIREMENTS?

Luggage which is manoeuvrable, solid, lightweight and secure. Some concepts are becoming more widespread, particularly the idea of a suitcase or a backpack as a fashion accessory. Consequently, shapes have to be more distinct and unusual and colours have to stand out.

WHAT IS THE DESIGN PROCESS FOR A SUITCASE OR A BACKPACK?

Every suitcase or bag is designed in response to a specific consumer need.

From the very beginning, the focus is on the problem we are trying to solve and we concentrate both on the function of the luggage and the travellers who use it so that we can meet their needs with the right ergonomics, features and organisation.

The design process then centres on five different areas in the pursuit of fluid and harmonious lines, genuine elegance, a lightweight structure and, of course, security.

WHICH INNOVATION WAS THE MOST COMPLICATED TO DEVELOP?

Our transition to using green materials (recycled PET) for the interior and exterior of our luggage has required multiple tests and improvements in the woven design of the threads to create the hard-wearing luggage for which DELSEY PARIS is renowned.

The latest generation of the SECURITECH® zip required a long development process to ensure a streamlined travel experience with the most hard-wearing suitcases.

WHAT ARE DELSEY PARIS' STRENGTHS AND PARTICULARITIES IN TERMS OF INNOVATION AND DESIGN?

Focusing on Parisian elegance, lightness, solidity and ergonomics, our designs and innovations are inspired by specific consumer needs.

It's our job to resolve any issues they might encounter on daily journeys or when travelling so that mobility becomes easy and entirely stress-free.

IN YOUR VIEW, WHAT WILL THE SUITCASE OF THE FUTURE BE LIKE?

The suitcase of the future is a green suitcase which is barely handled at all, offering the highest level of security while remaining lightweight, without becoming a gadget.

The suitcase of the future might also be a suitcase which is rented on demand, with "downtown check-in" services (as is already the case in Hong Kong) in every city around the world or stress-free transport from departure to arrival.

The future might also offer the chance to free ourselves from our suitcases, in total security and as soon as possible. We've all experienced that feeling of relief once our luggage has been safely checked in. So why not try to do away with this stress altogether?

INNOVATIONS 2020

2020 will be all about innovation. DELSEY PARIS has worked tirelessly with its teams to meet travellers' needs in terms of safety, ergonomics and comfort and to protect the planet by designing increasingly sustainable products. This also involves a focus on environmentally friendly design, keeping the use of plastics to a minimum, starting with the luggage design process.

Taking a more environmentally responsible approach was an obvious choice. Mission accomplished: DELSEY PARIS uses recycled materials to make its luggage, including polyester from recycled plastic bottles for the lining and fabric of some collections.

Security plays an essential role in a streamlined travel experience. A new patented secure fastening, the SECURITECH® 3 zip, has been developed to guarantee travellers' peace of mind. This zip reinforces the security of the lock, making unwanted access to the suitcase even more difficult.

Our new backpack models can be worn whatever the weather, thanks to their ultra-waterproof material. They also feature hidden pockets, a RFID-blocking pocket to protect travellers' cards and a secure zip fastening. Comfort has also been improved with a ventilation system which keeps clothes dry and reduces perspiration.

GREEN COLLECTIONS

Travel and nature are intertwined. Whether you want to set off as an intrepid (yet sustainable) explorer, pound the pavements with a wheeled suitcase or climb mountains, trust in Delsey Paris' intelligently designed, practical and lightweight luggage. Its products are now environmentally friendly too, thanks to new materials including recycled plastic which are as hard-wearing as they are sustainable..

VOLUME DIMENSIONS

The data in inches shows overall dimensions of the luggage (including wheels, handles, feet, pockets). The volume in liters is calculated from the "body" of the suitcase (excluding wheels, handles, feet, pockets), it shows the real useful volume of the luggage.

The weight in kilograms is net and calculated without storage covers, hangers and padlocks).

INTERNATIONAL GUARANTEE (3, 5, or 10 years)

DELSEY luggage are subject to rigorous tests of quality for homologation.

They are manufactured using high specification on materials and subject to stringent quality controls.

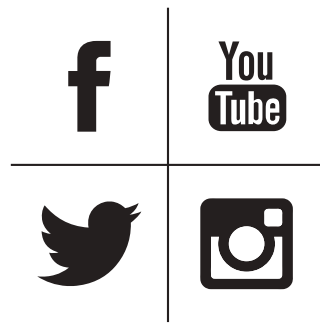

DELSEY products are guaranteed against any manufacturing defects under the terms of the conditions described on the guarantee coupon inside the luggage.

Luggage measurements and weight are given overall as an approximate guide. Cabin luggage: dimensions of this luggage conform with IATA Recommended Practice 1749a concerning the maximum dimensions for luggage that can be allowed in the cabin (sum of dimensions H+W+D=115 cm). However, some airlines reserve the right to impose different regulations. Cabin luggage dimensions are calculated without the expandable gusset being used.

THIS CATALOGUE IS NOT CONTRACTUAL, DELSEY RESERVES THE RIGHT TO CHANGE OR WITHDRAW CERTAIN MODELS, CHARACTERISTICS OR COLORS.

Photos and information are provided in this catalogue subject to typographical errors.
This catalogue is a worldwide version. Some of the collections that are displayed may be unavailable in some countries.
