# CELLUCORE LIVE

LIVE STREAMING  
CELLULAR TRAIL CAM

## VIEW LIVE VIDEO WITH THE TOUCH OF A BUTTON.

The CelluCORE Live Cellular Trail Camera is feature-rich with everything you need in a cellular camera, plus Live Streaming Video on-demand. So, with the touch of a button on your smart phone, you get real-time video of deer you're managing, spots you're scouting, property you're protecting, or any scenario that matters to you. And, with Dual SIM Connectivity, it automatically connects to the strongest AT&T® or Verizon® network signal in your camera's area.

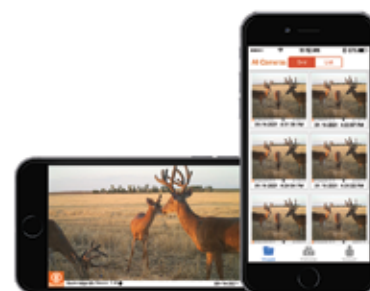

STREAMS LIVE VIDEO  
TO YOUR PHONE

- Optimized antenna
- High output No Glow IR LED's for best-in-class night range and battery life
- 32MP images, 100 ft night range
- Sorts images by weather, wind, moon & more

Model No. 119908D  
UPC: 0-29757-01912-7

## BUILT TO MAKE "LOW BATTERY LIFE" ALERTS OBSOLETE.

The CelluCORE 20 Solar combines the reliability and image quality of the CelluCORE 20 with an integrated solar panel to dramatically increase battery life.

The solar panel detaches so you can adjust it to face the sun and includes a rechargeable lithium-ion battery that can maintain full charge for up to 70 images per day with adequate sunlight. When the solar panel runs down, the camera will then utilize the "AA" batteries until the panel recharges and is used again. And, with Dual SIM Connectivity, it automatically connects to the strongest AT&T® or Verizon® network signal in your camera's area.

### KEY FEATURES

- Integrated solar panel can be detached and positioned to face strongest sun position
- Solar Panel comes with rechargeable lithium-ion batteries that can maintain full charge for up to 70 images per day with adequate sunlight before switching to the cameras "AA" batteries
- Dual SIM automatically connects to the strongest network signal – AT&T or Verizon
- 20MP images, 80 ft night range
- Optimized antenna

## AUTOMATICALLY CONNECT TO THE STRONGEST NETWORK.

The CelluCORE 20 Dual Sim gives you the proven performance and reliability of the original CelluCORE 20 now with dual carrier connectivity. That means you can automatically connect to AT&T® or Verizon®—whichever offers the strongest cellular network based on your camera's location. No need to compare with network strength maps!

### KEY FEATURES

- Dual SIM automatically connects to the strongest network signal – AT&T or Verizon
- Make setting changes through your phone
- Optimized antenna
- High output IR LED's for best-in-class night range and battery life
- 20MP images, 80 ft night range
- Sorts images by weather, wind, moon & more

### BUILT FOR THE PURSUIT

Bushnell builds trail cameras for the network connecting, 24/7 viewing, image sorting, night range crushing, easy set up enabling, Mother Nature thwarting reliability you depend on. Just like you, they're **Built For The Pursuit.**

**THE CELLUCORE A20 & V20** Cellular Trail Camera is a high-performance cellular trail camera family that's easy on the wallet. The CelluCORE Cellular Trail Cameras are feature-rich and easy-to-use. They connect, receive, and sort high-quality images faster and hold up with rugged reliability season after season. You'll get clear day and night photos sent right to your devices, plus long battery life, and simple setup. With CelluCORE, you've got everything you want in a cellular trail camera, for less. So, go bag that trophy. Then toast with the good stuff.
